Bag Limits:

APG bag limits will be 5 deer for the entire season. 1 antlered and 4 antlerless deer may be harvested or all 5 animals may be antlerless.

Sunday Hunting:

All Sundays throughout the entire deer season. This will provide additional opportunities to place hunters in the field when it otherwise would be prevented during the week due to military mission activities. In addition, allowing deer hunting on all Sundays during the season will assist APG in managing the population to minimize the risk of deer collisions with personal and military vehicles and to maintain the health of our forested areas.
